

**1 20 MIL WEAR LAYER**

Urethane for superior performance. Easy to clean double UV coating for stain and scratch resistance.

**2 1.5MM VINYL TOP LAYER**

Made from 100% Virgin material for stability and real wood visuals.

**3 5MM COMPOSITE CORE**

Waterproof construction with a Uniclic Locking System.

**4 ATTACHED UNDERLAYMENT**

IXPE closed cell cushion for superior sound absorption. Conforms to sub-floor imperfections.

## Flex Core Naturals

Flex Core Naturals is flooring constructed with a high-density 100% waterproof core and an attached underlayment providing superior quiet performance, enhanced warmth and comfort underfoot. Naturals flooring will not absorb moisture, mold or mildew.

Naturals Collection offers 6" wide by 48" long planks featuring the most popular wood species in their natural untouched beauty. Our embossing adds a real wood texturing to further replicate the species in their natural form.

The Antibacterial feature makes this floor hygienic, easy to clean and family friendly - a perfect choice if you have kids and pets. Flex Core Naturals provides a real wood look in a waterproof and low maintenance floor for handling the demands of everyday living.
