- 3 4MM COMPOSITE CORE**
100% Waterproof Rigid Core High Density Construction with Unilin Fold Down Locking System.

Rigid Core Values

Rigid Core Values is our extra dense, dimensionally stable luxury plank featuring a 100% waterproof rigid core that will not mold or mildew. These products have a durable wear layer and increased density and stability in comparison to traditional vinyl plank flooring. This combination provides exceptional resistance to indentations and telegraphing from minor subfloor imperfections.

Values feature a drop and lock click system for a simple and fast installation that does not require an adhesive. The Values Collection is the perfect combination of performance and affordability for any room in your home.
