

PRO SERIES CHARACTER OAK

Oak is a timeless visual and still one of the most popular flooring species today. It also has a long and diverse history - from use on Viking long ships in the 9th & 10th centuries, as wall paneling in prestigious old world buildings and the making of barrels for aging wines or whiskeys are just a few examples.

Our Pro Series Character Collection captures all the natural variation, durability and history of Oak. The finished floor will add warmth, character and value to your home.
